NAVAL LIFE RAFTS

Magam Safety designs, develops and manufactures several models of survivability equipment systems for military and civil Naval crews. Starting from single person life raft, up to 25 persons capacity.

Magam's professional light-weight Naval life rafts, manufactured from Butyl Rubber Coated Fabric and provides a high standard of safety and comfort.

Magam's survivability equipment main features:

- ❑ **Backup:** Fail-safe backup flotation mechanism.
- ❑ **Quality:** Magam uses the finest raw materials and delivers maximum durability and performance (including 2 ply coated fabric).
- ❑ **Safety:** upper and lower circular buoyancy chamber are each capable of independently supporting its occupants if one of the tubes is damaged.
- ❑ **Smart:** Raft's floor is established between the two buoyancies, allows using both sides of the raft.
- ❑ **Easy, fast operation:** once the raft inflates, it is ready to use.
- ❑ **Low cost maintenance:** Repairable fabrics to lower O&M cost.
- ❑ **Comfort:** Compact stored size, light weight and easy deployment,
- ❑ **Easy Transportation:** The raft fit into a fitted PVC lightweight valise, including handles to carry.

With over 80 years' experience in the maritime industry, Magam-Safety is among the market leaders in the design and manufacture of marine safety and survival equipment. As chosen supplier of some of the leading names between Navies and Armies across the globe, our mission is to deliver the best value safety and survival solutions

Life rafts are used in aircrafts and vessels (RBA/RMA) in emergencies to transport people from their endangered sinking vessel, to safety. Ship crews and passengers may find themselves depending on it , therefore the raft needs to be in excellent condition at all times.

Magam Safety designs and manufactures suitable rafts for all Marine vessels, including Yachts, Merchant vessels, Passenger liners, cruise ships and every military vessel upon client's request.
