Sealed Bag for Divers

Magam Safety's sealed bag are designed for use under extreme physical conditions and underwater. In order to achieve such durability, we are using the strongest materials available in the market that keeps the gear protected at all times.

The Divers sealed-bag, was designed by Magam Safety R & D Experts in order to answer operational military needs. Easy to carry and operate, durable, and made out of high-resistance materials.

Suggested use of the product:

Professional divers, Navy Seals or any Naval commandos forces, Maintenance Divers and more. Any divers can keep their gear dry and clean while diving in deep water, exposing their equipment to extreme conditions.

The bags air pressure are fully controlled by the diver, allowing balanced and safe dive.

Magam's products provides you with the highest levels of protection, safety and comfort.
